

Class Diagram

Since I accidentally use the Evaluation Copy of the Visual Paradigm to draw the class diagram, it attached the export file with the watermark Figure[1]. So I also generated the class diagram with IntelliJ IDEA.

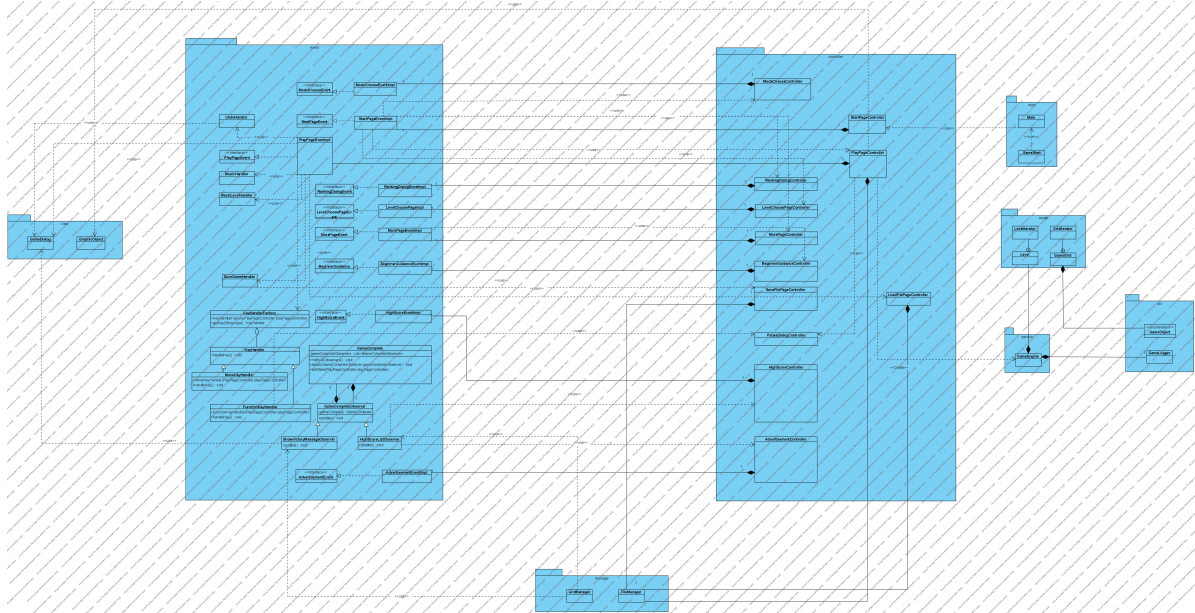

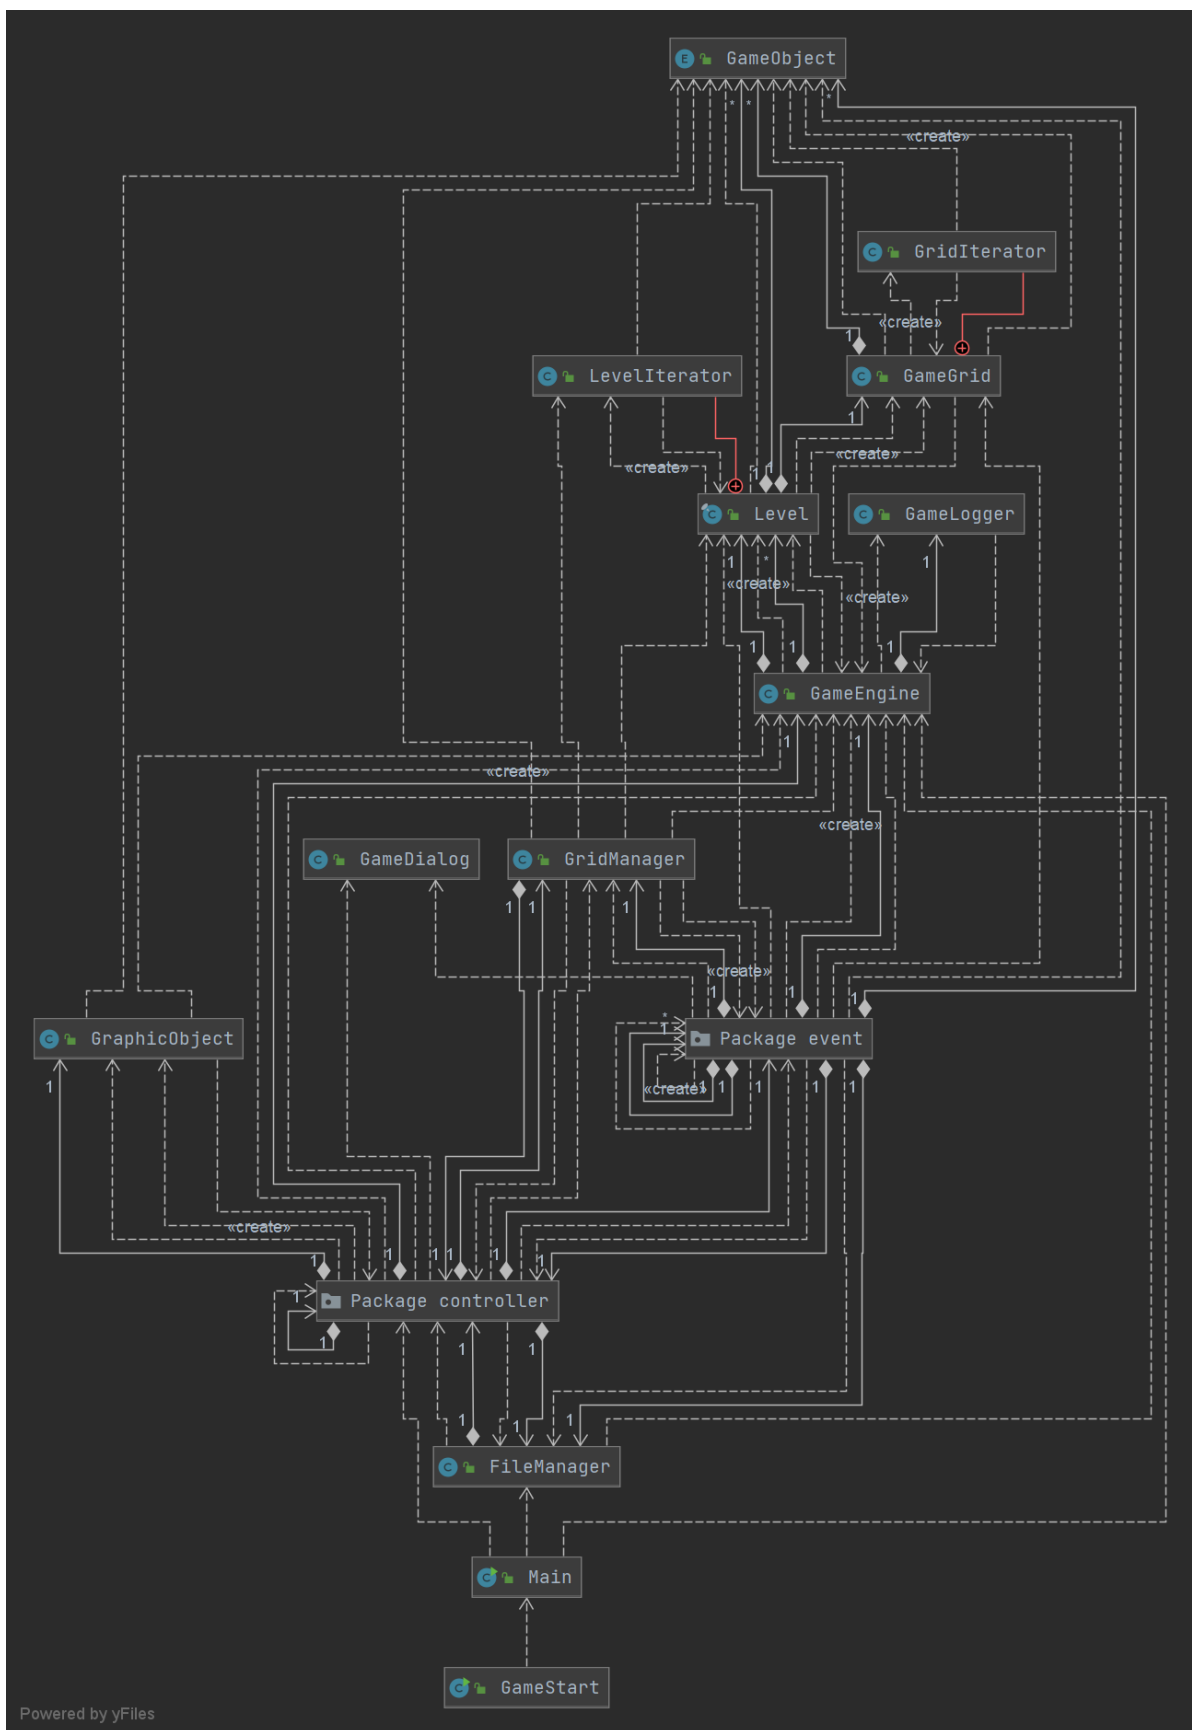

Figure [1]

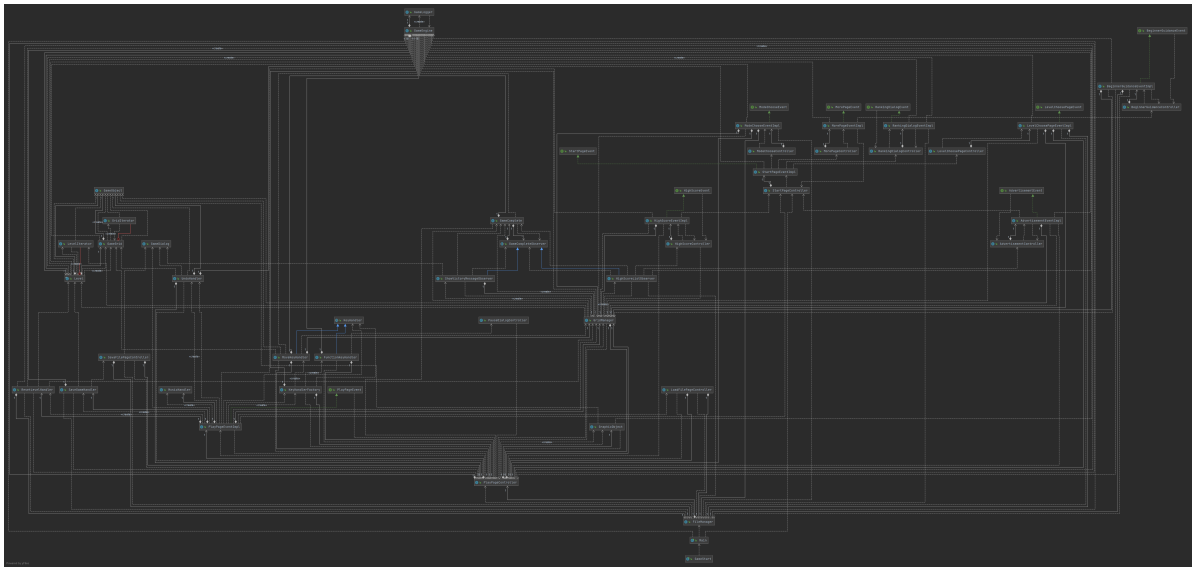

The class diagrams below are generated by IntelliJ IDEA with source code.

This class diagram shows the relationships between packages.

Figure[3]

This class diagram shows the relationships between main classes.

Figure[4]

This is the final version of the class diagram.
